Project Engineer & Manager:

Widmer Engineering
903 Eight Avenue
Beaver Falls, PA 15010
David H. Widmer, P.L.S. (724) 847-1696

Completion Date: Ongoing

Cost of Entire Project: 2 Billion Plus

Work For Which Firm Was Responsible: \$100,000 Plus

Nature of Firms Responsibility:

Widmer Engineering has always recognized the need for innovation and the use of progressive technologies. That is why time after time they have called on Land & Mapping Services to provide them with some of the most technologically advanced solutions available in the industry today. We offer only the very latest solutions in Digital Photogrammetric Mapping, Digital Orthophotos and GPS Control & Monumentation Services.

Work For Which the Firm Was/Is Responsible:

Three sites of design scale mapping: Digital Photogrammetric Mapping, and GPS Control Services & Monumentation to aid in the design of borough, township and multi-township wide sanitary sewage systems.

Two railway yards: GPS Control Services & Monumentation, Digital Photogrammetric Mapping and Digital Ortho Photo Generation.

Numerous other sites: GPS Control Services & Monumentation, Digital Photogrammetric Mapping and Digital Ortho Photo Generation. Final mapping utilized for site design of proposed commercial and residential facilities.

Final Output: All products shipped in Intergraph Microstation DGN file format.
